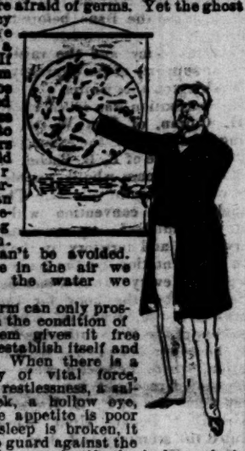
VOLUME CVI.--NO. 254. ALEXANDRIA, VA., THURSDAY EVENING, OCTOBER 26, 1905. PRICE 2 CENTS.

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon.



Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or other intoxicant.

"Your 'Golden Medical Discovery' is a sick man's friend," writes Geo. N. Turner, Esq., (Ex. Financial Secretary International Brotherhood of Teamsters), 2208 California Street, Denver, Colo. "For the past seven years my health gradually failed. I lost my appetite, became nervous and debilitated, very despondent and unable to sleep. No medicine helped me until I tried Dr. Pierce's Golden Medical Discovery. It put new life into my veins and increased vitality until I could once more enjoy life and attend to my business. Eight bottles affected a complete cure and gladly do I recommend it."

Dr. Pierce's Pellets—only one or two a day will regulate and cleanse and invigorate a foul, bad Stomach, torpid Liver or sluggish Bowels.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Bloody Conflicts in Russia.

Two bloody conflicts occurred at Ekaterinoslaf, Russia, yesterday between the troops and demonstrators, The first took place opposite the municipal building and the second near the Pushkin monument. Numbers were killed or wounded in both instances by the volleys fired by the soldiers. The demonstrators near the municipal buildings refused to disperse when ordered and erected barricades. A meeting of students of the schools who are on strike was dispersed by the police, who made free use of their whips. Many of the students were injured. The town was in darkness last evening and the military were parading the streets. The telephone and telegraph wires are cut and it is reported that the stirkers have destroyed the permanent railroad bed. Fifteen persons were killed and twenty-six injured Tuesday in a conflict betweeu troops aud strikers at the Briansk works, where the strikers had erected wire entanglements.

The serious situation caused by the big railway strike in Russia has resulted in the Czar being isolated at Tsarskoe-Selo, so far as mail advices are concerned, according to information received at the State Department. The advice came in the nature of a cablegram from Spencer S. Eddy, the American charge d'affaires at St. Petersburg. It was dated Wednesday at Tsarkoe-Selo and read as follows: "All postal communication cut off by the railway strike."

Moscow resembles a State of siege. The price of meat has trebled, and there is great distress among the poor. Many people living in neighboring provinces and who went to Moscow are camping in the streets, and 2,000 persons are living in cars. On the Kazan line the stations are in the hands of the troops. The post and telegraph offices are strongly guarded by Cossacks. The populace is becoming panicky. A young girl employed at a railroad station fell on her knees before the strikers and pleaded with them not to surrender, declaring that they should continue the struggle not for material reasons, but for the achievement of human liberty. The crowd responded by singing the "Marsellaise."

Received by the Pope.

The Pope yesterday received Lieut. Frank E. Ridgley, Paymaster Hugh R. Insley, Prof. William Snyder Eichelberger, and Prof. Frank Bowers Littell, of the Naval Observatory at Washington, and forty-eight Catholic sailors of the United States cruiser Minneapolis, now at Naples. They were conducted to the Vatican by Chaplain Johnson McC. Bellews.

The Pope, who was dressed entirely in white, and accompanied by Mgr. Bisletim, master of the pontifical chambers, Mgr. Kennedy, rector of the American College, and members of the ecclesiastical court, received the Americans in the hall of the consistory. To each he gave his hand to kiss, while he spoke kind words, especially to the officers. The Pope was then presented with a basket of beautiful flowers, tied with ribbons from the caps of the sailors.

This presentation greatly pleased the pontiff who expressed his pleasure at the thought which prompted it. The Pope then delivered a short address in Italian, which was translated by Mgr. Kennedy, thanking the Americans for coming to see him, and expressing his pleasure at meeting so many representatives of the American navy. Addressing the sailors, he said he was glad of the opportunity to enjoin upon them "the necessity of obedience to the government and to their officers, as by such obedience capable sailors and soldiers are made."

The Pope gave his blessing to all present and to their familes and friends, and presented each with a souvenir medal. When the Pope left the hall the sailors saluted him with three hearty cheers which resounded through the Vatican.

A Strange Case.

After living thirty-four years as girl and woman, May Best, who resides in an exclusive district in Brooklyn, has been told that she is a man. It was not until recently when obliged to go under the care of a physician that "Miss" Best learned the truth, was told positively that her life so far had been a mistake; that she was a man. It needed the testimony of several well-known medical men to convince the patient, who is now said to be physically ill, as the result of the mental shock. The revelation is one of the strangest medical men in Brooklyn recall. As "Miss" Best, she had been born and reared in a Virginia family. As a child she played with her dolls as did the little girls of the neighborhood. When she grew up she was sent to a boarding school for girls and completed her education there. She joined girls' clubs, and with them devoted her time to the fads and fancies of dress. With them she talked of sweethearts, and of the ideal man she hoped to meet some day and become his wife. With enough money to satisfy all of her whims, she went to Brooklyn, and took lodgings with two girl friends from the South. There they entertained their girl friends and men. She gave most of her time and money to charity. Mr. Best as he should now be called, will move to another city, wear men's clothes, shave regularly instead of at irregular times as in the past, when a sprouting beard shamed the woman he thought himself to be; discard the veil that he had to wear to hide his increasingly masculine features, and be a man.

A Daredevil Ride

often ends in a sad accident. To heal accidental injuries, use Bucklen's Arnica Salve." "A deep wound in my foot, from an accident," writes Theodore Schuele, of Columbus, O., "caused me great pain. Physicians were helpless, but Bucklen's Arnica Salve quickly healed it." Soothes and heals burns like magic. 25c at E. S. Leadbeater & Sons, druggists.

Mince Pie Cause of Divorce.

Mince pie has separated Charles and Margaret Lager, of Chicago. The work begun by the pie was completed in the divorce court before Judge Mack last Saturday. The Lagers were married in 1900 in Buffalo. The bride was 18 years old. She admitted on the witness stand that her mother had given her a special course in the culinary art. "I could bake good pies, too," declared the wife, "but once I failed—just once. I made a mince pie and forgot some ingredients. Charles tasted it and began an awful spattering. Then he jumped up and struck me in the face." The court gave her a divorce.

Could Not be Better.

The uniform success of Chamberlain's Colic, Cholera and Diarrhoea Remedy has won for it a wide reputation and many people throughout the country will agree with Mr. Chas. W. Mattison, of Milford, Va., who says: "It works like magic, and is the best preparation I know of. It couldn't be any better." He had a serious attack of dysentery and was advised to try a bottle of this remedy, which he did, with the result that immediate relief was obtained. For sale by Gibson & Timberman and W. F. Creighton & Co.

Frightful Suffering Relieved

Suffering frightfully from the virulent poisons of undigested food, C. G. Grayson, of Lula, Miss., took Dr King's New Life Pills, "with the result," he writes "that I was cured." All stomach and bowel disorders give way to their tonic, laxative properties. 25c at E. S. Leadbeater & Sons, drugstore, guaranteed.

Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

THURSDAY EVENING, OCT. 26, 1905.

THERE is no little anxiety in Philadelphia as election day draws near. Dispatches from that city say that, unless all signs fail, there will be riot and bloodshed on that occasion. This statement is based upon the consensus of opinion, expressed with a shudder, of numerous of the best informed and most conservative citizens of the city. No such general excitement over any event has existed in Philadelphia in a great many years as has been created by the present political campaign. The people who are opposed to the old regime seem to be thoroughly convinced that this not only is a fight for decency and good government, but that it also is a fight for their homes and firesides. Recent scenes in Philadelphia show the temper of the people. But afew weeks ago the police acknowledged that they were unable to disperse mobs which had gathered in front of the houses of representative men and demanded that they come out and hear what their constituents had to say in condemnation of them. Such scenes forecast more serious movements.

EMORY MCCLINTOCK, chief actuary of the Mutual Life Insurance Society, was the sole witness yesterday before the Armstrong committee in New York. Mr. McClintock explained in detail the methods employed by the actuaries of the Mutual in determining the dividends paid to policyholders and stated what, in his opinion, were the reasons for the marked diminution in dividends paid by the company in the last few years. The fact was established that the dividends as paid annually by the Mutual to policyholders are not determined by actual calculations based on the results of the company's business for any given year, but are largely a matter of the actuary's judgment, based on the results and the experiences of previous years. The dividends, it was shown, were paid from year to year, according to what the actuary conceived to be a fair average or, more probably, the dividends were made to conform with the amount of money the managers left after taking what they wanted.

WHILE the treaty of peace between Russia and Japan removed a thorn from the Czar's pillow, many of his people seem determined that his head shall not rest easy. Conditions in his empire are growing worse daily, and Nicholas is now isolated in his palace. Seventy-five thousand men are on a strike and their numbers are being increased hourly. What will be the climax remains to be seen. There is great distress among the people. The prices of the necessaries of life have advanced sharply and thousands of persons are quartered in streets or sleeping in railroad cars. No one seems to be able to pour oil upon the troubled waters. The legitimate ruler of the empire is impotent to stem the rising tide of disorder, and Count Witte, one of the most popular and astute men in Russia, is jeered and hissed when he attempts to curb the passions of men composing the mobs, who are terrorizing the country.

ANOTHER illustration of the truth of the adage, "de gustibus," &c., comes from Orient, L. I., where a fourteen-year-old girl rejected the advances of a sixteen-year-old youth and married the father of her admirer, who is forty years old and has but one leg. He is a widower with four children. The would-be benedict is so mad that his father cut him out and that he has a stepmother instead of a sweetheart, that he has left his home and is now weighing sugar in a grocery store. He has a sister fifteen years old, and she has announced that she will leave home if her papa brings there a mama a year younger than she is. The school trustees at Orient are great on compulsory education, and maybe the bride will have to go to school until she is sixteen.

THE DYNAMITING of houses in large cities is becoming a serious thing. These acts are said to be committed by men who use this horrible method of showing their resentment towards those who may accidently or unintentionally incite their displeasure. The fronts of three buildings were demolished on the corner of Grand and Mott streets, New York, on Tuesday night by unknown parties. Fortunately no one was killed. Such outrages are becoming more frequent in large cities, and the perpetrators generally escape.

THE management of the Mutual Life Insurance Company, of New York, is going to investigate itself. This was decided yesterday at a meeting of the board, the proposition coming from President Richard A. McCurdy, whose testimony before the Armstrong committee has created somewhat of a sensation. Evidently President McCurdy and his fellow-managers are not content with the way that the legislative investigators have been exposing graft in the management of policy holders' business.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., Oct. 26.

Leaving New Orleans tonight on his return trip to Washington by sea, President Roosevelt for the first time since he became President of the United States will be out of touch with the country for a period of four days. During much of that time he will be beyond the international three mile limit, and therefore beyond the confines of the United States. This unprecedented action was deemed necessary tby the Presiden in order to avoid the breaking of the quarantine regulations of southern States. The voyage will afford him four days of absolute rest. At six o'clock tonight, aboard a government light-house tender, and in company with Secretary Loeb and Dr. Rixey, he will proceed from New Orleans to Sand Key light, at the entrance of the Mississippi river, where he will transfer his flag to the cruiser West Virginia. The course of the vessel will be laid around Florida, thence straight to the Virginia capes, covering over 1700 miles in all. It is expected that she will arrive at Hampton Roads on the afternoon of Monday, October 30, when the President will transfer to his yacht Dolphin for the trip up the Chesapeake and Potomac to Washington, arriving about 5 a. m. on Tuesday. During the voyage the West Virginia will be convoyed by the cruisers Colorado and Pennsylvania. The West Virginia is equipped with wireless telegraph apparatus, and an effort will be made to get into communication with one or more of the several wireless stations along the coast.

The Congressional sub-committee appointed to investigate the possibilities of cutting down Uncle Sam's printing bills, began the real work of the investigation this morning bp placing Oscar J. Ricketts, the acting public printer, on the stand. Ricketts pointed out a number of the abuses, which have grown up and are responsible for the prevailing extravagance and waste of public funds. Too many documents are printed and bound, he said, and in a large measure the remedy lies with Congress. To get rid of the superfluous documents piling up in the store rooms, they are frequently sent to public libraries.

Within the last 8 years not less than 800,000 of these volumes have been returned, the libraries each declining them or already possessing duplicates. Bound copies of documents are held in reserve for Senators and Representatives. Not more than 30 per cent. are called for. The binding of this reserve could well be cut off, Mr. Ricketts said. The cost of binding this reserve of about 615,000 volumes exceeded $553,000 for the 56th, 57th and 58th Congress. Mr. Ricketts also pointed out duplications and triplications in the printing of documents and reports. The Civil Service Commission prints 23,000 copies of their annual report, he said, and can not get rid of it. Reports of the Bureau of Labor are most uniformly wasted. The cost of lithographing and illustrating government publication, Mr. Ricketts said, had grown from $81,000 in 1896 to $356,000 in 1905. The appropriation for public printing and binding he said, has grown from $2,500,000 in 1893 to $6,185,000 in 1905.

It is reported here that the pool room at St. Asaph will be reopened within the next ten days.

"I am about the most unadulterated republican bishop in the Methodist Church, but if I were an Ohio voter this fall, I'd vote early and often for Patterson," said Bishop David H. Moore, of Portland, Oreg, just as he was leaving the morning session of the semi-annual conference of bishops, now being held in this city. Bishop Moore comes from Athens, Ohio, had relatives in the last Ohio Senate who voted with "Boss" Cox. The bishop knows Ohio politics and just presided at the Methodist conference at Columbus, Ohio. Bishop Hamilton, of San Francisco, presided at the morning session and Bishop Berry, of Buffalo, at the afternoon session. Other bishops reported at the afternoon session. This evening several bishops will address a mass meeting at the Metropolitan Memorial Church.

Consular reports to the Department of Commerce and Labor indicate that electric railways will succeed steam railroads for passenger service in Japan. The government railway passenger traffic between Kobe and Osaka has been so affected by an electric railway that the imperial railway bureau is considering the advisability of establishing an electric line to meet the competition. To forestall enterprise the government is considering establishing an electric road between Tokio and Yokohama.

A feast is to be given this winter by Dr. H. W. Wiley, chief of the bureau of chemistry in the Agriculture Department. The principal article on the menu will be chickens killed three years ago, and partridges killed two years ago. This "feast" is part of the plan Dr Wiley has mapped out for his investigation, requested by Congress, as to the wholesomeness of cold storage foods. During the summer he has collected statistics from houses which handle these foods, showing the kinds treated and the minimum and maximum time kept in storage.

Virginia D. A. R.

The ninth annual conference of the Daughters of the American Revolution, of Virginia, met in the Roanoke Elks' home yesterday with 50 delegates present. Every section of the State is represented. The State regent, Mrs. Eleanor S. Washington Howard, of Alexandria, is presiding. The address of welcome on behalf of Roanoke and the Martha Lynn Lewis Chapter was made by Mrs. Samuel W. Jamison, of Roanoke. Mrs. Robinson, of Alexandria, responded. The secretary, Mrs. A. D. Brockett, of Alexandria, called the roll and delegates from 25 chapters responded. The address of the State regent showed a gain in the past year of three new chapters and 97 new members. The State regent's report of work accomplished was gratifying. Reports from different chapters were then read.

A delay of two hours yesterday in issuing the Census Bureau's cotton ginning report greatly excited cotton speculators all the way from New York to New Orleans, and the charge was made by telegraph to Director North that crookedness was responsible for the delay. The report, which was to have been issued at 12 o'clock, was not given to the public until 2. Cotton men everywhere were on the lookout for the report, and when it failed to appear on schedule time the wires were kept hot with rumors of crooked deals.

Secretary of War Taft is not planning to enter a campaign for the presidency, has no intention of doing so, is content with his seat in the Cabinet, and means to stay there as long as the President desires it. Such is the substance of an announcement made by him yesterday, and which will tend to put at rest, temporarily at least, the talk of his being a presidential candidate. While the statement was made by Judge Taft in all seriousness, he smiled at the idea that he was to do either—resign from the Cabinet or stand for the presidential nomination—and repeated that he would do neither.

CONFEDERATE VETERANS.

At the afternoon session of the grand camp at Petersburg yesterday the annual report of the Grand Commander was read.

Past Grand Commander G. L. Christian, of Richmond, offered the following resolution, inspired by Col. W. E. Cutshaw, City Engineer of Richmond:

"Whereas this camp is informed that valuable letters and other documents left by our great commander, Gen. Robert E. Lee, are now in the possession of his son, Gen. G. W. C. Lee; and

"Whereas, in the opinion of the camp, it is all important that these papers be edited and published with as little delay as is practicable, consistent with proper execution of that task: Therefore, be it

Students and Police Clash.

Twenty-five policemen and 200 students of the Chicago College of Dental Surgery fought yesterday afternoon, following a class "rush," and 15 students were arrested. The police fired several shots in the air to frighten the students.

The freshmen and the junior classes of the dental school met in their annual class rush yesterday, and the scrimmage became so desperate that a riot call was sent to two police stations. When the police arrived the struggle between the students had been in progress half an hour and had blocked all traffic in nearby streets.

The students joined forces at the approach of patrol wagons, and the policemen were pelted with stones and vegetables, while water was poured on them by students from the upper floors of the college. The policemen felt that they were losing ground and fired several shots.

This brought the students to a halt, and the policemen rushed on them with clubs. This treatment drove the students in all directions, but the police made 15 arrests. Several students were severely bruised.

Fight Over a Young Woman.

New York, Oct. 26.—As the result of a fight over a young woman with whom each had fallen in love, Lester F. Dwight, manager of the Courtland street branch of the Long Distance Telephone Company, is in the J. Hood Wright hospital, suffering from three serious bullet wounds, and Dr Wm. H. Wood, a dentist, is under arrest, charged with felonious assault. The shooting occurred early this morning, at 614 west 124th street where the men lived together in handsome bachelor apartments. Until six weeks ago, Dwight and Wood were inseparable. When not at business they were always together, and were known to other persons in the house as "Damon and Pythias." They shared all things together. Late last night the tenants heard the men quarrelling and early this morning were startled by the report of three revolver shots. When the police broke into the apartment they found that Dwight had been shot in three places. One bullet had entered the mouth, and lodged in the left side of the neck. A second bullet was embedded in the chest, and a third was in the right thigh. An ambulance surgeon who responded to the call, stated that while the wounds were serious, they were not necessarily fatal. Wood was found to have a number of scalp wounds. His eyes were cut and bruised, showing that he had been badly beaten before he had fired his revolver. Both men shield the name of the object of their disagreement from the police.

Today's Telegraphic News

Serious Conditions in Russia.

St. Petersburg, Oct. 26.—There is an element of hope in the situation today, serious as conditions are acknowledged to be. After a night of horror, when it was feared that terrible outbreaks might occur at any moment, there is a great relief in the mere discovery that there has been no hostile demonstration against the government as yet. The strike is still growing, however, and the situation is pregnant with danger.

A new feature of the strike today which threatens serious developments is the attempt being made to call out on strike the employees of commercial establishments in this city. Committees from the strikers have paid visits to many establishments urging the employees to stop work. The efforts of the strikers in this direction have been attended with great success so far.

The revolutionary spirit is spreading and talk of overthrowing the Romanoff dynasty is openly indulged in. Numerous meetings have been held, at which resolutions have been adopted unanimously declaring for the establishment of a democratic republic in Russia and for armed resistance to the aggression of private property interests. Anarchistic agitators are rapidly gaining an influence over the minds of school boys and teaching their ideas to the students.

Tramway service has been interfered with today by the strikers and their sympathizers. The authorities remain inactive.

Warsaw, Poland, Oct. 26.—Owing to the complete interruption of railroad communications there is a great rush to the telegraph offices to send messages. A great crowd has besieged the telegraph offices today, and there is much delay in transmitting dispatches.

A general strike is expected to be inaugurated here on Sunday.

Socialists this morning organized a street procession, but it was dispersed by soldiers. It is feared that the there will be disturbances in the city owing to the arrest of workingmen and leaders of the strikers by policemen.

The prices of meat, coal, and all provisions are advancing rapidly.

It is reported this afternoon that martial law will be proclaimed in the city tonight. A few shops have been plundered in the workmen's quarters on Basis Island where the streets have been crowded all day with idle men, but no serious disturbances have occurred.

Odessa, Oct. 26.—The strike has assumed almost general proportions in southern Russia. On the railways the tie-up is almost complete. Efforts are being made to induce the few remaining men to abandon their posts. Workmen in other lines of industry are also joining the strike, and there is great danger that all business will be brought to a standstill. Only a few local trains have been allowed to run on the railroads, and tickets for Moscow, St. Petersburg and other points are being refused to would-be purchasers.

The correspondent of the Exchange Telegraph Company, at St. Petersburg, wires that he is authoritatively informed that the Czar has decided to grant to Russia a constitution similar to that of Germany. The correspondent adds that at the meeting of the council of Ministers, held yesterday, it was decided to satisfy the economic demands made by the people, but to refuse the political reforms asked except the freedom of the press, which will be granted.

Russian imperial fours declined a point to 96 on liquidation on the critical strike conditions.

Paris, Oct. 26.—As the result of the bad news from Russia as to the strike situation, Russian stocks had a serious drop on the Bourse, today. Russian rentes fell sixty centimes. Industrials are very weak.

Trolley Cars Collide.

New York, Oct. 26.—More than twenty persons were injured more or less seriously in a collision of trolley cars on the new Williamsburg bridge, early today. Traffic was delayed for some time and excitement attending the rescue of the passengers from the damaged cars necessitated the calling out of the police reserves. Shortly after seven o'clock, when all cars coming toward Manhattan were crowded, a big truck broke down on the car tracks causing the cars immediately behind it to come to a stop. Car No. 2,757, of the Eighth street line, was among the latter, and was crashed into by car number 458, of the same line. The impact was so great as to smash the rear platform of 2,767, and the front platform of 458, and to throw the occupants of the crowded cars forcibly to the floor and against the ends and sides of the cars. Women shrieked and men cursed, while a few of the later, endowed with coolness at critical times, kicked out the windows of the cars and dragged out the shrieking and fainting women passengers. The accident happened just as the advance throng from Brooklyn and Williamsburg were bound for their work in Manhattan, and as a consequence thousands were delayed in reaching their places of employment owing to the tie-up of all cars. The floor of car 458 was almost completely torn from the other parts of the car by the force with which it struck car 2,757. The latter was also badly wrecked.

Confederate Veterans.

Petersburg, Va., Oct. 26.—Everything is in a misty state of glorious confusion. On account of the rain the parade was called off this morning, but it will take place in the afternoon if it clears up. Because of lack of soldiers to do the fighting the "Battle of the Crater," was called off, for good and all. Two companies are here from Norfolk—that's all. The streets are packed with people and impromptu parades make things lively in spite of the rain.

Virginia Division, United Confederate Veterans, held their meeting this morning and completed its business. Judge Garnett, of Norfolk, was re-elected Major General Commanding.

General Bolling, Chief Marshal of the parade, said this morning that he did not see why the parade should be held. The veterans are advanced in years, of course, and many of them are very feeble. Some of them were tottering in the short parade to the grand camps meeting yesterday and one of them R. H. Fitzgerald, of Nottoway county, last night passed into the beyond, dying after a stroke of appoplexy.

Sheppard was condemned to three months imprisonment, without respite, and ordered to pay a fine of 600 francs, and costs, while an award of 20,000 francs damage was made in favor of the the girl's parents. This sum he must pay conjointly with the Hotchkiss Automobile Campany, by which he was employed.

Flee From Disrobing Venus

Allentown, Pa., Oct. 26.—There is at least one Allentown woman who knows just how to put the minions of the law to fight. Special Officer Dillinger and Detective Haines, of the Lehigh Valley Railroad, this morning went after a number of women for stealing coal from cars near this city. Five were found; one succeeded in getting away, three were arrested, and the fifth started to run. She was too stout to run far, and when she saw that the officers were going to overtake her she stopped and deliberately commenced to undress. When the officers saw that she was in earnest and kept on peeling off clothes, they turned and fled, taking with them the three captured.

Four Colored Persons Burned to Death.

Asbury Park, N. J., Oct. 26.—Four colored people were burned to death in a fire that destroyed the shanty of Harvey G. Shivey, 160 Union Avenue, West Park, last night. The origin of the fire is a mystery. Shivey was not in the house and the fire started twenty minutes after a neighbor had called. The skulls of two little girls, victims, were crushed in and the fact has given rise to ugly rumors, which Coroner Bennett, of Long Branch, is now investigating.

Judge Richards rendered a decision sustaining the motion to quash the proceedings, thus deciding against Jones. It is said that the case may be appealed.

San Francisco, Oct. 26.—The personal effects of Miss Alice Roosevelt, which arrived on the steamer Siberia, have been removed from the steamer and shipped in bond by express to Washington. None of the boxes was smaller than two feet square. The goods filled a big express wagon.

Hope Abandoned.

Cleveland, O., Oct. 26.—All hope of the safety of the steamer Kaliyuga and her crew of 17 has been given up by her owners. The steamers Pontiac and Central reported by telegraph this morning to marine officials and owners here that they had made a complete tour of Lake Huron and had not located the Kaliyuga. She is supposed to have gone down in the recent storm.

Burning of a Hotel.

Birileff, the Russian Minister of Marine, is bound for the Macedonian coast to force Turkey to accept the scheme outlined by the powers, for international control of finances in Macedonia.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by Gibson & Timberman and W. F. Creighton & Co.

Interstate Commerce Law Convention

Chicago, Oct. 26.—Stirring action was promised for the session of the Interstate Commerce Law Convention, which opened this morning in Steinway Hall, attended by several hundred members who propose to strengthen the position of President Roosevelt in the regulation of railway rates. Before the delegates had breakfasted there was an active campaign inaugurated to keep out what was termed the "Railroad lobby," whose representatives, it was charged, are making desperate efforts to mullify and break the force of whatever resolutions may be adopted. It was declared that the plan of these railroad representatives was to confuse the issue before the convention, the endorsement of Roosevelt's rate policy and the raising of a fund for support of an aggressive lobby in Washington this winter.

The convention was called to order by S. H. Cowan, of Fort Worth, Texas, acting chairman of the executive committee, in place of E. B. Bacon, of Milwaukee, chairman, who is unable to attend on accouont of illness. The personnel of the convention will represent the hundred organizations from every State and territory in the union, with representation on the basis of one delegate for every hundred members.

Shortly after the hour for the convention of the regulars, seventy-five members of the "revolutionists" walked into the ante-room of the regular convention, where delegates were signing pledges before qualifying as delegates. They were head by F. G. Kiesel or the Weber Club, Ogden, Utah, Kiesel appointed the secretary and demanded admission. He was asked: "Are you in accord with the call of this convention? Are you a railroad man?"

Instead of replying Kiesel turned to the crowd at his heels, and in a loud voice proclaimed: "Let us repudiate this convention. It is wrong. Don't sign that pledge." Followed by his associates from the rump convention Kiesel left the room. The pledge signed by delegates who are not railroad men, bound them to support rate legislation as outlined by Roosevelt.

When the pro-railroad men left the hall, they gathered at the Autorium Annex, and proceeded to hold a "rump" convention.

The President in New Orleans.

New Orleans, Oct. 26.—Amidst booming of cannon, blowing of whistles and cheering of thousands of people, President Roosevelt arrived here at 9:15 o'clock this morning and ended his southern tour after an all-night's uneventful ride from Memphis, Tenn. No stops were made in Mississippi except to replenish the engine's water supply, but scores of doughty Mississippians greeted the train as it whirled past the stations.

United States Senator Foster and Congressman Davey, of Louisiana, met the President at Hammond, 50 miles from here, and accompanied him to this city. The train was immediately transferred to the Illinois Central's Stuyvesant docks, where the steamship Comus was in waiting to take Mr. Roosevelt and 400 citizens for a trip on the river. A high wind made it very uncomfortable for the passengers to remain on deck, exposed to the weather, but President Rootevelt, with his accustomed vigor, paid no attention to the wind or cold. Fifty cases of champagne had been placed aboard the Comus and a light buffet luncheon was served.

Promptly at 11:30 o'clock the Presidential party disembarked and fifteen minutes later the parade was started through the principal streets of the city. Along the line of march were several houses infected with yellow fever, but the infection did not worry Mr. Roosevelt in the least. The President will leave here at six o'clock on the light-house tender Magnolia, Captain Field, commanding, for the mouth of the river, where he will transfer to the cruiser West Virginia, which is lying three miles off at anchor in the Gulf.

The most imposing military and civic procession ever seen in New Orleans paraded the streets for nearly two hours in honor of the President. A striking feature of the procession was the appearance of battle-scarred Confederate veterans who marched on foot with huge Confederate flags.

Rival to the Mammoth Cave.

Louisville, Ky., Oct. 26.—Promising to rival in extensiveness and beauty the famous Mammoth Cave is one recently discovered near Glasgow Junction. One arm has already been explored for a distance of several miles and further progress is stopped by a swift river. It was not possible to tell the magnitude of this stream, as the torches only threw light a few feet away. The investigations so far have been conducted by Dr. Hazen and John Thompson, aided by a colored man. As soon as a boat with which to ferry the stream is completed the search will be prosecuted with vigor. The new cave is described by Dr. Hazen as being of surpassing beauty. Scores of chambers within short distance of the entrance have already been explored. In one was found a quantity of bones supposed to be the remains of Indians.

To Inaugurate Revolution?

Havana, Cuba, Oct. 26.—It is rumored here that General Jose Miguel Gomez, who was the nominee of the liberal party for President, has abandoned his campaign, and is buying 6,000 guns in New York, where he went after quitting Cuba, to be used on organizing a revolution.

Andrew Kagsland, 40 years old, a tailor, who was a prisoner in the county jail at Paterson, N. J., committed suicide during the night in his cell by hanging himself with his suspenders. Kagsland was arrested early Tuesday morning on a warrant sworn out by his wife, charging him with assault and battery.

Letter to Sheriff Palmer

Alexandria, Va.

Dear Sir. You are so well known that the people have put you in office. They knew what they were about: They didn't do it by accident.

Wouldn't it be a handsome thing to do to paint your house? It is a nice house, has a good substantial commodious look, and isn't rusty at all, you know; but a fresh coat of paint would make it so bright! it's a pity not to.

Devoe is beautiful paint, but the beauty of it is: it lasts so long, and does so much more than adorn an already interesting and attractive edifice. House out-buildings and fences. There isn't a man or a woman in the county who wouldn't see them and make some pleasant remark.

Of course, you will paint the county property; nothing would mark your administration more, in the eyes of the people; and having done the same thing at home, it is the most natural thing in the world to do it for them.

Yours truly,
F W DEVOE & CO

Downham-Greenwell Wedding.

Last night, at 7 o'clock, Miss Mary Regina Greenwell became the bride of Mr. Robert Forsyth Downham. The rites of marriage were performed by Rev. Henry J. Cutler of St. Mary's Church, at the home of Mr. and Mrs. William Henry Greenwell, corner of Prince and Alfred streets, in the presence of the immediate families of the bride and groom. The bride entered the parlor upon the arm of the groom to the strains of Mendelssohn's wedding march, played by Miss Lillian Callahan, a cousin of the bride. They stood amid a beautiful bower of palms and chrysanthemums and were attended by Miss Lottie Greenwell, the bride's sister, and Mr. Julian Y. Williams. Mr. Greenwell gave his daughter in marriage. The bride was tastefully attired in a Princess gown of white organdie over taffeta and carried Bride's roses. Her only ornament was a diamond sunburst, the gift of the groom. The bridesmaid wore a pretty creation of white organdie over pink silk and carried La France roses. After an informal reception Mr. and Mrs. Downham left for a northern tour where their honeymoon will be spent. They will be home, at the residence of the bride's father, after November 5, and in early spring will make their permanent home in the Lee residence, corner of Oronoco and Washington streets. Mr. Downham recently purchased this house and has planned to make it a most attractive home. Mrs. Downham has for some time been prominent in musical circles. She has frequently appeared in the successful productions of Sharps and Flats and is, at present, leading soprano of Christ Church choir. Mr. Downham is associated with his father, Mr. E. E. Downham, in the E. E. Downham Company, and is an energetic and successful young business man of this city.

Body Identified.

As was stated in the Gazette of that day, the body of a man was found floating the river between. Shepherd's and the Magazine wharf, a short distance north of this city, yesterday morning and was taken to Washington. The remains were subsequently identified as those of Price P. Haller, who had been living in that city. Although no sign of foul play was found upon the body, the pockets of the trousers were turned inside out. In another pocket there was a $1 bill, a gold signet ring, bearing the initials P. P. H., and an Odd Fellows' emblem. It is thought his watch and chain are missing, Mrs. Bettie Haller, the dead man's mother, who lives in Wytheville, Va., called at the morgue in Washington yesterday, and, though she did not say her son's death was due to suicide, her conversation gave that impression. Haller, according to his acquaintances, was much depressed before he disappeared. He was worried over money affairs, and had borrowed considerable recently. His wife died in January. He leaves two little children with his mother in Wytheville.

Steamers to be Inspected.

The reinspection of the steamers on the Potomac river will begin Friday next, the United States steamboat inspectors for the district, Messrs. Wright and White, having notified the owners of one of the boats that they will be in Washington on that day to look her over. The other steam vessels plying on the Potomac river will be taken in turn, until all the steamers have been gone over by the inspectors for the second time within the year. The inspection will, it is understood, be mainly to see that all the life-saving and fire-fighting equipment aboard each steamer is in place and in working condition. The inspectors are also requiring the crews of the steamers to give a fire drill at which they man the pumps and get a stream of water on an imaginary fire, and swing out and lower the life boats ready for the passengers to step in them.

Another Bank.

Mr. S. L. Monroe, representative of the Virginia Safe Deposit and Trust Corporation, of Alexandria, was in Herndon this week for the purpose of establishing a local bank, and it is stated that sufficient stock has been subscribed for by the people of Herndon and vicinity to make it absolutely certain that a bank, a branch of the Alexandria corporation, will be opened in three or four weeks. The safe and other outfit have been ordered, and a building will be rented in which business will be conducted temporarily, or until a building can be erected for the permanent home of the bank. Officers and directors will be elected from the local stockholders, and the manager of the Herndon branch will be a local man. Mr. Monroe has been assisted in the preliminary work by Mr. B. A. Mankin, a former merchant of Herndon.

Ran Into a Trench.

A bread wagon ran into a trench on Wolfe street, between Columpus and Alfred, at an early hour this morning, and was extricated after considerable difficulty, another team being used in the work. It will be remembered that during the early part of last summer a citizen stepped into a trench on Prince street and seriously injured himself. The police will endeavor to ascertain the names of parties who open streets without permission and fail to place lanterns on the same, and warrants will be issued for the delinquents to show cause why they should not be fined according to law.

River Survey.

The surveyors attached to the office of the engineer officer in charge of the Potomac have been running lines and making preparations for the dredging of the channels in this vicinity, the bids for which will be opened in the office of Lieut. Col. R. L. Hoxie in a few days. All along the river between this city and Washington the surveyors have their range flags, red and white material, on a high staff, flying to mark the different lines by which the dredging work will be done. Several bars which have formed between this city and Washington will be removed, and work will also be done in the Washington harbor.

Personal.

Mrs. Isaac Gregg and Miss Sarah Kemper will have the golf tea on Friday, October 27th, from 3 to 5 p. m.

Mr. John B. Padgett, purser of the steamer Estelle Randall on the Glymont mail route, has accepted a position with the new ferry company between this city and Washington and will enter upon the discharge of his new duties Saturday. Mr. Padgett was for many years agent in this city for the old Washington and Alexandria ferry and later manager of the line. His friends and acquaintances will be glad to learn that he will be identified with the new company.

Miss Gertrude Selecman, of Occoquan, who has been visiting at the home of Mrs. George N. Duffey, on Cameron street, has returned to her home much to the regret of her many friends in Alexandria.

Mrs. Peter Wise has returned from Hyattesville, Md., where she spent the summer and fall.

The Arnold Stock Company.

The crowd that journeyed through the inclement weather of last night to the Opera House to see "A Child of the Slums," as presented by the Arnold Stock Company, were well rewarded by seeing a good melodrama excellently rendered by that company. The play last night, in the opinion of many, was the best one of the week. Little Neomi Wheeler played the part of Midge, a child of the slums, in a manner worthy of one much older, and her acting throughout the piece was strenuously applauded. The other parts in the drama were handled by the company in their usual good style. Tonight the company will present one of the strongest melodramas in its repertoire—"The New York Mystery." Several sets of scenery will be used for this play that has been expressly painted for it and plenty of good comedy abounds throughout the show. Many new specialties will also be introduced. The Arnold company will, on Saturday night, give away two prizes to those holding the lucky numbers, the first to be $10 and the second a live pig. The person winning the pig will have to go on the stage and catch it. A matinee will be given on Saturday afternoon at 2:30 o'clock.

Com. vs. Wallace Twyman, indicted for robbery and assault; jury and case in progress.

Threatened His Wife.

The only case on the docket of the Police Court this morning was that of young colored man, who had been arrested by Officer Smith for drunken and disorderly conduct and for threatening to shoot his wife with a pistol. The weapon was captured and taken to the station house with the prisoner. He was fined $10.

Pistol Shots.

It is believed that a difficulty occurred some time during last night between some persons in what is known as Muir's alley, in the northern part of the city, as pistol shots were heard in that neighborhood and this morning two hats were found. The police are making an investigation.

Death of Mr. Denty.

Mr. Silas Denty, who had been ill for some time died at his home near Accotink today. The deceased was well-known in this city and vicinity and was the father-in-law of Mr. C. P. C. Timberman, of Alexandria.

Body Identified.

The singular death and possible murder of a middle-aged German woman developed yesterday when Gottlieb Muller identified the woman's headless body which was found in the Bronx river, at New York, last night, as that of his wife, Eva Muller. The husband says that on April 7 last, after collecting her life's savings in a money sack, which she left at her daughter's house, his wife disappeared. She had agreed to meet her husband at a resturant, but he says that she was not there to keep the appointment. He went to his daughter's home, finding there the hand bag and its contents, which his wife had just left, as if stepping out to visit a neighbor. Muller says he searched everywhere, but the well-filled hand bag was the last trace he had of his wife's actions. The coroner has not yet ascertained the cause of the woman's death.

Passenger Trains Collide.

TELEGRAPHIC BREVITIES.

Burglars blew open the safe in Jere Miller's store and postoffice in Springdale, Conn., during last night and got away with $500 worth of stamps. The inner portion of the safe, containing money, resisted the attack successfully. No one seems to have heard the burglars.

Edward George Cunliffe, who absconded with $101,000 of Adams Express money, pleaded guilty to a charge of larceny in the criminal court at Pittsburg, Pa., today. He was not sentenced, but will in all probability be sentenced on Saturday.

The President.

President Roosevelt spent seven hours in and around Little Rock yesterday, and his journey from Fort Logan H. Roots, on the north side of the Arkansas river, to the City Park in Little Rock was marked by enthusiastic demonstrations of welcome by thousands of persons who lined the streets. While in Little Rock the President delivered two speeches, in one of which he denounced lynching, eliciting hearty applause. After the President's address before 40,000 persons in the City Park at Little Rock the party was taken to the Albert Pike Masonic Consistory, where a luncheon was given. This function ended at 3:30 o'clock and the visitors then entered a special train at the Rock Island station to return to Memphis.

How to Dose a Dog.

A dose of castor oil is as disagreeable to the ailing dog as to the ailing human being. He kicks against it, and does right, when he is grabbed by the back of the neck, and with his jaws yanked apart with a towel awaits the nasty dose. This is poured down his neck—on the outside. It is usually followed by a few more doses, all of which go the same way, which is the wrong way. The jaws are in a vise, the dog is in torture, and he is ready to condemn his very best friend for thus treating him shabbily. If they only were sensible enough to know how any dog, from the meanest cur to the bluest blooded canine on earth, was in the habit of taking his oil, it would be different, but they are all at sea on the subject, and poor doggie is about dead when a friend utters:

"Hump! All chumps on dogs, I see. Pour the stuff over the poor fellow's paws."

Lo, and behold! The wise few who thought they knew all about dogs and dog things learned something to their credit when they saw how carefully Towser licked his paws, cleaned them, and thus took his oil without fuss and in the proper way.—Outing.

That Painter.

The artist who had found Marshby full of "paintable" places and friendly people was much attracted by one of the young women of the village, whom he met at a social gathering. He asked and was accorded permission to escort her home from a little party one evening, and, as the evening was mild and the moon was shining, they lingered at her gate for a few minutes' conversation. Suddenly the stillness was broken by a hoarse shout which came from an open window of the little house:

"Cast off that painter! Cast off that painter!"

The artist started as if he had been shot, but the young woman gave him a reassuring smile and a becoming blush.

"It's—it's just father dreaming," she said softly. "He's a retired sea captain and often talks in his sleep."

A Poor Man of Mutton.

A "poor man of mutton" is a term applied to a shoulder of mutton in Scotland after it has been served as a roast at dinner and appears as a broiled bone at supper or at the dinner next day. One of the former earls of B., popularly known as "Old Rag," was indisposed at a hotel in London. When one morning the landlord came to enumerate the good things in his larder and to prevail on his guest to eat something, his lordship replied, "Landlord, I think I could eat a morsel of a poor man." This, together with the extremely unprepossessing appearance of his lordship's countenance, is said to have so terrified poor Boniface that he fled incontinently from the room and tumbled headlong downstairs.

Names of Guns on Men-of-war.

"In the olden days," remarked a veteran sea captain the other day, "the custom obtained of giving names to the guns on men-of-war.

"In the case of the United States frigate Chesapeake the principal guns bore distinctive names, as follows: Brother Jonathan, True Blue, Yankee Protection, Putnam, Raging Eagle, Viper, General Warren, Mad Anthony, America, Washington, Liberty Forever, Dreadnaught, Defiance, Liberty or Death, United Tars, Jumping Billy, Rattler, Bulldog, Spitfire, Nancy Dawson, Revenge, Bunker's Hill, Pocahontas, Towser, Willful Murder. These names were engraved on small squares of copper plate."—Washington Star.

Polo Is Ancient.

Polo was played from the backs of horses in Persia during the tenth and eleventh centuries. At that time the Persians in a great contest, Iran versus Turan, found their match in the Turks, greatly to the disgust of King Afrasiab. The Byzantine poet Nizami sung of polo in the twelfth century. Then polo spread from Persia into central Asia, India and Tibet in the sixteenth century, when the great Emperor Akbar patronized it. In Japan the game is at least 1,000 years old and is still popular under the name of da-kin, or "ball match."

He Knew His Man.

"You seem depressed."

"Yes, I've got to ask my girl's father tonight for her hand."

"Bosh! Don't be alarmed. The stern father exists only in the comic papers."

"Maybe so, but the borrowing father is a painful reality. He'll land me for a fifty to a dead moral certainty."—Louisville Courier-Journal.

Her Tremolo.

"Ah, how I love to hear your daughter sing!" said Archie as he waited in the parlor. "She's practicing her exercises now, isn't she? What a beautiful tremolo."

"No," replied the mamma scornfully. "She has had the sore throat for three days. She's taking a gargle."—Indianapolis Star.

Followed.

A servant girl had been sent on an errand. On returning she said to her mistress, "Oh, ma'am, there's been a young man following me." Mistress—Oh, indeed! Servant Girl—Yes, ma'am. I know he was a-following me, because he kept looking around to see if I was coming.

Tart Answer.

"A woman's bonnet would not cost much if it wasn't for the trimming," said the miserly husband.

"Neither would a man's whiskers," answered his wife.—Chicago News.

Sincerity is the face of the soul, as dissimulation is the mask.—Dubay.

Last Hope Vanished.

When leading physicians said that W. M Smithart, of Pekin, Ia., had incurable consumption, his last hope vanished; but Dr. King's New Discovery for Consumption, Coughs and Cold, kept him out of his grave. He says: "This great specific completely cured me, and saved my life. Since then, I have used it for over 10 years, and consider it a marvelous throat and lung cure.' Strictly scientific cure for Coughs, Sore Throats or Colds; sure preventive of Pneumonia. Guaranteed 50c and $1.00 bottles at E. S. Leadbeater & Sons, drug store, Trial bottle free.
